

Tajweed

With Ramzi Zahra

This is a one year course on the science of Tajweed and its basic application in recitation as per the following details

OBJECTIVES

We hope - with the tawfiq of Allah - through this course to:

- Gain appreciation of the Science of Tajweed and its importance
- Understand the basic rulings of Tajweed and be able to apply them while reciting the Qur'an
- Improve the pronunciation of the Arabic letters while studying their articulation points
- Improve the recitation of Surat Al-Fatiha and selected verses without any major tajweed mistakes

METHOD

The classes will consist of a combination of both the theoretical and practical aspects of Tajweed. Each lesson will begin with an explanation related to the chosen topic followed by a demonstration and a combined class recitation. Following that, students will be split into a number of groups to practice and receive feedback by an instructor. Students will be encouraged to practice recitation and applying the Tajweed rulings in their own time to maximise the benefit.

TEXT

The main material to be used in these classes will consist of course handouts, worksheets and presentations based on the Arabic Tajweed Manual "Kitaab Muneer Fi Ahkaam Al Tajweed" by The Quran Preservation Committee in Jordan.
